Requests, Questions & Updates

Public feedback on Planning Block Split:

- Comments received from the public identified a transportation inefficiency in planning block 69
- Both parts of Gladway Rd. were included in PB69, but the southern part of Gladway Rd. does not fully connect, it only accesses to Bengies Rd.
- The PB was split so that homes on Gladway that can only access Bengies Rd. are separated
- The remainder of Bengies Rd. was included in the new PB
- Committee should consider this adjustment for all options

Option Nomination

- Members independently review materials in preparation for option nomination
- After about 15 minutes, members will nominate the top option(s) for the committee to consider
 - Nomination should be made with a focus on a plan that best meets the overall objectives and considerations
 - A member may nominate an option that includes a specific edit to planning block assignments
- Principals **may not** nominate options, but may engage in the discussion

Sticker Exercise

- Nominated Options are posted
- Members will be given two stickers each, place only one sticker per option
- After stickers are placed, the group will discuss and determine:
 - Any options that should be removed from consideration
 - Possible changes to options to improve effectiveness
- If needed, a second sticker exercise may be performed
- Principals **may not** participate in the placement of stickers, but may engage in the discussion

If Needed Sticker Exercise – Recommendation

- Nominated options are posted
- Members will be given one sticker each
- Principals **may not** participate in the sticker selection exercise
- Place sticker on the map you choose as the committee's recommendation
 - Option receiving the most votes will represent the committee's recommendation
 - Remaining options will be included in the final committee report to the Board
