RECOMMENDATION

That the State Capital Budget Request for Fiscal year 2003 Appendix I for \$ 27,017,712 be approved.

The \$3,406,033 for Roof Replacement will complete a 15-year replacement cycle. The 15-year roof replacement cycle will begin again in FY2004. The Perks Reuter Assessment Program, completed in 1998, was used as a basis to fund a five-year renovation plan for every BCPS school. The FY03 capital budget request of \$16,659,251 for Major Maintenance projects reflects funding to renovate the next eight middle schools in chronological order. \$3,988,548 for Science Room Renovations will provide the State matching funds for the next eight science rooms on the system-wide priority list. \$1,762,500 will provide funds to update boilers based on age (all boilers have outlived their acceptable life expectancy), condition, and the lack of replacement parts. Finally, State funds of \$1,201,380 will be used to fund window replacements at 13 elementary schools.
