INFORMATION

Two reports are included which analyze the September 30 enrollment information shared with the Board on October 11. The first report shows enrollment by school by grade level and the second report documents the minority enrollment at each school.

Analysis of the September 30 enrollment reveals that overall, elementary enrollment declined by 2% when compared to last year's enrollment. Only Northwest Area elementary schools showed increased enrollment, with a 3% increase over last year's enrollment. The Central, Northeast and Southeast Areas declined by 3%, and the Southwest Area declined by 2%. Middle School enrollment showed only a 1% increase countywide, with 0 growth in the Central, Northeast, and Southeast, and 1% and 2% growth in the Southwest and Northwest respectively. High school enrollment increased by 3% countywide. Increases in high school enrollment occurred in all 5 areas, with the greatest growth of 5% in the Northwest, followed by 3% growth in the Southeast and Central Areas and 2% growth in the Southwest and Northeast.

The Minority Enrollment report reveals a 3% decline in white students, the largest ethnic group represented by 60% of Baltimore County students. Overall, the minority percentage of students increased by 2% compared to last year to a total of 40% of the total enrollment. African-American students comprise the second largest ethnic group, increasing by 3% and representing 33% of the county's total enrollment. The fastest growing ethnic group was multiracial (47% increase), followed by American Indian (19% increase), Hispanic (18% increase), and Asian (6 % increase).
